

**EARTHLIGHT**™

**SOIL-POWERED LED  
MOISTURE METER**

**SOIL QUALITY  
DETECTOR**

**ELEMENTAL OHM LLC**™

**KEEP PLANTS WATERED.**

**IMPROVE SOILS EASILY.**

## **LOVE YOUR PLANTS?**

**Earthlight™ is a novel, patent-pending device for the monitoring of the moisture content and status of the living biome of your soil.**

**It can be setup long-term in beds or potted plants to tell you when to water your plants or amend your soil with composts or teas.**

**It can also be used to test and compare soil quality, check the effectiveness of living soil amendments after you add them, or used out in the field to find microbially active soils.**

**Certain common beneficial soil microbes called exoelectrogens emit electricity.**

**YOUR RICH, LIVING SOIL IS THE POWER SOURCE.**

**BE A PART OF  
THE SOIL  
REVOLUTION TODAY.**
